

I am deeply concerned about Pappas Telecasting Companies' providing \$325,000 in airtime to Republican candidates in certain areas. The airwaves belong to the public, yet media companies are disproportionately skewing access to the airwaves to one sector of the public. This is an abuse of power and public trust. These decisions are arguably illegal and illustrate the need for reform in media ownership rules and the license renewal process. I hope you will do everything you can to eliminate these abuses, make necessary reforms, and restore faith in the democratic process that is now in such great jeopardy.

Many thanks for your attention to this very important matter.
